Names: Keith Kiama Maina   **Current Role:** Software Developer
Email: Keithkiama2003@gmail.com   **Mobile:** +254 769 309085

Background

I am a full stack developer with 3 years of experience of working in a developing country. I am driven by my interest in serving people while taking the approach of a servant leader. I am in charge of writing the code and developing the software products. Apart from coding, I am responsible for sending regular updates to the Project Manager. I work with other team members, such as designers, the QA team, and testers.
